elongation factor Tu
UTP–glucose-1-phosphate uridylyltransferase GalU
propanediol utilization microcompartment protein PduA
UDP-glucose 4-epimerase GalE
UDP-N-acetylglucosamine acyltransferase
acyl carrier protein
ATP-dependent chaperone ClpB
endopeptidase Clp ATP-binding chain C
ADP-L-glycero-D-mannoheptose-6-epimerase
ATP-dependent Clp protease proteolytic subunit
chaperone protein DnaK
chaperonin GroEL
glutamine-hydrolyzing GMP synthase
inosine-5'-monophosphate dehydrogenase
short chain dehydrogenase/reductase family oxidoreductase
UDP-galactopyranose mutase
phosphopyruvate hydratase
NADP-dependent phosphogluconate dehydrogenase
UDP-glucose 6-dehydrogenase
capsular polysaccharide biosynthesis protein Cps4I
VF Category
Immune modulation
Nutritional/Metabolic factor
Adherence
Enzyme
Stress survival
Effector delivery system
