S — Unknown function
E — Amino acid metabolism
L — Replication/repair
C — Energy metabolism
J — Translation
K — Transcription
H — Coenzyme metabolism
M — Cell wall/membrane
P — Inorganic ion transport
G — Carbohydrate metabolism
F — Nucleotide metabolism
T — Signal transduction
O — Post-translational modification
I — Lipid metabolism
U — Intracellular trafficking
D — Cell cycle control
V — Defense mechanisms
Q — Secondary metabolite biosynthesis
W — Extracellular structures
N — Cell motility
B — Chromatin structure
